# DEBATE PAGE: MY FUTURE JOB? NO IDEA. Hello!

**Instructions for teachers:** Step 1 is done in two separate groups. Each group can see only their own information. Try to see Tim's/ mother's point of view. Then do **Step 2**. Get both groups together and see each other's view of the problem. Try to find a solution.

## Step 1

### Student A

**Tim: How can I know what I want to do?**

'Hello! My name is Tim and I'm 13 years old. I'm growing quite fast and people are always commenting on it. I hate it. Another thing that makes me absolutely mad is when they keep asking: 'You are a big boy, Tim. Do you know what you want to study?' The problem is I don't! I have no idea what school I'm going to choose when I finish primary school. My friend Alex wants to be a vet because he loves animals but I'm not keen on anything that much. How can I know what I want to study?'

**Circle the correct answer.**

Tim says that

- a) people keep telling him what he should study.
- b) people keep commenting on his age and asking about his future job.
- c) he knows exactly what he would like to do.

**Discuss in your group. Don't talk to students B yet.**

What would you do if you had this problem? What/ who could help Tim? Is it pleasant to hear such comments?

## Step 1

### Student B

**Mother: He doesn't know his mind.**

Tim doesn't know his mind and it's becoming quite a problem. He always wants to do something special and joins a course to learn that. The problem is that he gets bored very soon and leaves the course. It costs quite a lot of money and ends in no result. Of course he is too young to know what to do in the future but the other side of the coin is a crowded flat. We have a set of drums, a pottery wheel, a diver's suit and a lot of books about medicine. What shall we do with it? Throw it away or give it to somebody? And the question is: What will come next?

**Circle the correct answer.**

Tim's mother says that

- a) Lucas doesn't want to try any hobbies.
- b) he always starts something but he never finishes it.
- c) they always give away a lot of things.

**Discuss in your group. Don't talk to students A yet.**

What would you do if you had this problem? What/ who could help Tim? Do you think Tim's mother is right not to like this?

## Step 2

Now work as a class, both groups together.

1. Group A: inform about your problem and advice.
2. Group B: inform about your problem and advice.
3. Compare your information. Has your opinion changed? Was your advice right? Would it really help to solve the problem? Can you find a new solution which will help both Tim and his parents?
