Instructions for teachers: **Step 1** is done in two separate groups. Each group can see only their own information. Try to see Simon's/ the father's point of view. Then do **Step 2**. Get both groups together and see each other's view of the problem. Try to find a solution.

Step 1

Student A

Simon: I hate family holidays.

'Please, help me! My name is Simon and I'm 12 years old. Summer is coming and I absolutely hate family holidays! Every year we – my mother, father and little brother – go on holiday to the seaside. It is always so boring! I hate lying on the beach all day long. I also hate the long journey¹ there and back. I hate the hot weather. My parents look happy and they always tell me to join my brother and have some fun with him but he is only 6 and his idea of fun is building sand castles... I don't want to go this year but I'm not allowed to stay at home, of course. What shall I do?'

Circle the correct answer.

Simon says that he hates

- a) his family, especially his little brother.
- b) to spend holidays with his family.
- c) staying at home when the others are on holiday.

Discuss in group of students A. Don't talk to students B yet.

What would you do if you had this problem? What/ who could help Simon? Who do you think should try more – Simon or his parents and brother?

Step 1

Student B

Father: We do our best but Simon isn't interested.

'Simon is a good boy but it's clear he prefers to have fun with his friends. We're too boring for him. He's often even ashamed of being with us. We often feel hurt because we want to have fun on holidays. We also have a small son which is boring for Simon, too. We want to make holiday plans together but Simon is always annoyed even before we start talking. He could suggest some plans, too. But it's no use to talk to him. It isn't fair. We try our best.'

Circle the correct answer.

The father says

- a) that he's always bored, too.
- b) Simon's behaviour hurts their feelings.
- c) Simon has suggested some good holiday plans.

Discuss in group of students B. Don't talk to students A yet.

What would you do if you had this problem? What/ who could help Simon? Who do you think should try more – Simon or his parents and brother?

Step 2

Now work as a class, both groups together.

1. Group A: inform about your problem and advice.
2. Group B: inform about your problem and advice.
3. Compare your information. Has your opinion changed? Was your advice right? Would it really help to solve the problem? Can you find a new solution which will help Simon?

Let's exercise

Let's stand up tall
And stretch up high.
Let's bend and touch our toes.
Let's straighten up.
And on the way
Let's touch our knees and nose.

Let's exercise a little more
And stretch up high,
And then
Let's touch our toes,
Our knees and nose.
Now let's sit down again!
